RICHLANDS.

Last April we began to advertise our town lots, making at that time a number of statements in regard to what we would do. Through the non-completion of the Clinch Valley extension of the Norfolk and Western our railroad facilities at that time were very limited. We had no railroad station and, indeed, one old farmhouse was the total sign of life about the place. Since then the railroad has erected a fine brick and stone freight station, one of the largest on the road, and will shortly erect a fine passenger station, while the Clinch Valley Company has spent, or is under contract to expend, \$350,000. A four-story hotel, the finest in Southwest Virginia, is under roof; a handsome iron bridge, of 180 feet span, crosses the Clinch river; two second-class hotels have been built, and a large number of stores are building under contract. The company has erected a handsome three-story building for its market, and a fine stone bank building is nearing completion. The machinery for the rolling mill is on the grounds, and coal is now coming out. A steam brick plant, complete in Southwest Virginia, is in operation, the amount of grading and other work is going on. The Clinch Valley division this fall, and the running of through trains between Washington and Louisville, putting Richlands immediately on a through line, will give an impetus to the prosperity of the town sufficient to throw it ahead of all competitors, and the attention of investors is called to real estate here as giving greater promise than any town in Southwest Virginia.

C. GRAHAM,

Agent Clinch Valley Coal and Iron Company, Richlands, Tazewell County, Virginia.

A HANDSOME CHURCH.

The Lutherans Have Let the Contract for Their Magnificent Edifice.

Roanoke is to have the finest Lutheran Church in the State.

The contract for its erection has just been awarded to J. B. Pollard, a Roanoke man, and work will begin at once. It will have a frontage on Second street s. w. of 108½ feet and will run back ninety-six feet on Fourth avenue. The church will be constructed of Peak creek stone, trimmed with brownstone, and the architecture is Gothic style.

The inside dimensions are: From entrance to pulpit, fifty-nine feet, six inches; width of main auditorium, fifty-nine feet; width of vestibule, seven feet four inches; seating capacity, seven hundred. The chapel is in the south wing of the building, and is thirty-five by sixty-four feet in the inside. To the right as you enter the church will be the organ, a very fine affair, and to the right of the pulpit is the pastor's study. The floor is to be inclined. There will be a tall spire one hundred and twenty feet high, and the distance from the ground to the roof will be fifty-seven feet.

The contract price is \$28,119. This does not include any of the furnishings, such as pews, upholstering, window-glass, heating apparatus and a thousand and one other things that will be necessary before the church is ready for occupancy. The church complete will cost nearly \$45,000, and the value of the church property will not fall below \$100,000. The work of tearing down the old building will begin at once and the new structure is to be completed by twelve months.

To the Board of Health.

The attention of the Board of Health is called to a pronounced nuisance on Henry and First streets, at the corner of Elm street (Eighth avenue) s. w. This nuisance has existed for months and the health of the neighborhood is endangered.

The authorities seem determined to break up the practice of leaving horses unattended on the streets, and every morning some one is lugged up before Mayor Evans and makes the customary contribution of one dollar. CINCINNATI, O., Sept. 22.—[Special]—Flour quiet; Family, 3.90@4.20; fancy, 4.50@4.76. Wheat steady; No. 2, red, 98. Corn, fair demand; No. 2, mixed, 41½@52. Oats firm; No. 2, mixed, 39. Pork dull, 10.50. Lard dull; nominal 6.10. Bulk meats easier; short-ribs 5.50; bacon steady; short clear 5.75. Whisky steady, 1.13.

CHICAGO, Sept. 22.—[Special]—Wheat. Volume of speculative trading fair, chiefly local. The local crowd was largely short and they were anxious to cover. A prominent trader bought right freely. The opening was weaker, prices ¼@½ lower, advanced 1½@¼, eased off again and closed about ½@1 higher than Saturday. The early weakness was due to the unfavorable tenor of European advices.

The firmness later in the session, or which developed soon after the opening, was attributed principally to the decrease in visible supply. Corn is active, market at times ruling rather quiet. The feeling was on the whole somewhat firmer, though at the opening an easier tone was manifested. Opened at ½ decline, after which prices advanced with some reaction. One cent sold off five-eighths and closed with one-fourth loss.

Oats—active, stronger and higher. Opened at ½@¾ advance, advanced ¾ and then receded ¼, became firm and advanced ½, receded ¼@½; near deliveries, especially September, were stronger, and the market closed easy at ½@¾ below outside figures.

Lard—Fair business, early sales were made at 21½@25 decline. Later prices rallied 2½@7½, advanced ½, closing in our line at lowest figures.
